## Our Partnership with SPS Commerce

With data delivered by SPS Commerce, Retailisation ensures that the right product gets to the right retail location in time to ensure supply meets demand everywhere and all the time. For allocation and replenishment and Vendor Managed Inventory (VMI) models.

Data driven supply chains are more effective, produce less waste and improve service levels. Good for your consumers, good for retailers, good for the brand and good for our planet.

## Retailisation delivers...

Forecasting

Automated Replenishment

KPI Reporting and Analysis

Key Item Planning

Assortment Management

Customer Success Services

“When supply and demand are not in sync, supply chains generate waste, known as markdowns and lost sales. The potential for margin improvement is huge when the shelf responds to real demand. It is our mission to capture that potential and improve your Return on Inventory”

Jasper Zeelenberg, founder Retailisation
